

VET (Vocational Education & Training) in schools

VCE/VET CISCO

Partial completion 22263VIC Certificate IV in Integrated Technologies

COURSE OUTLINE

Training Provider:	Elisabeth Murdoch College
Course Code:	Partial completion 22263VIC Certificate IV in Integrated Technologies
Location:	Elisabeth Murdoch College
Duration:	2 Year program
Time:	Wednesdays 1:30pm – 5pm
Cost:	TBA – Please see your VET Coordinator for cost details.

Description:

VET in schools multiplies opportunities for students. It enables students to complete a nationally recognised vocational qualification as well as contribute towards their VCE or VCAL Certificate. The CISCO Networking Academy has provided the ICT industry a range of training programs for 20 years. The VCE VET CISCO program has been structured to provide recognition for CCNA v5 Routing and Switching, the most popular course of the academy.

The course includes

- hands-on labs with industry grade equipment
- software simulations
- tools to build and troubleshoot small and large networks
- online course materials
- quizzes, demos and videos!

Contribution to the VCE/VCAL:

In 2020, EMC will be running Program A of VCE VET CISCO.

On successful completion of the two year program students are eligible for four credits toward their VCE as a 3- 4 sequence. From only one year of the course students will be eligible for a 10% increment towards their ATAR. On completion of the two years of the course students will be eligible for another 10% increment towards their ATAR.

More information on the increment process can be found on the VCAA website:
www.vcaa.vic.edu.au/vet/general/recognition/vetcredit.html

Units of Study:

Program A

Code	Unit Name
CCNA 1	Introduction to Networks (CCNA ITN)
CCNA 2	Routing and Switching Essentials (CCNA R&S)

NB: These are at VCE Units 3 and 4 level.

Program B

Code	Unit Name
CCNA 3	Scaling Networks (CCNA SCALE)
CCNA 4	Connecting Networks (CCNA CONN)

NB: These are at VCE Units 3 and 4 level

Pathways Examples

This course could help you become a,

- Network support technician
- Network Security Specialist
- Network/Systems Analyst
- Senior Network Administrator
- Network Engineer
- Helpdesk technician

Tertiary pathways:

- Advanced Diploma of Networking Security
- Advanced Diploma Networking and Systems Administration
- Bachelor of Engineering (Computer & Network Engineering)
- Bachelor of Technology (Computing Studies)

From a recent article in the Good Weekend August 24th 2019, "Labour Pains" by Greg Callaghan looking at technological advances and careers of the future.
"the massive networking company Cisco is pouring \$61 million into start-up Australia over the next three that could help among other things digitise government departments."

Please note: These details are subject to change and will require confirmation by the Registered Training Provider or TAFE.

VET enrolments are processed through secondary school VET Coordinators. If you are interested in completing this program, please contact your school VET Coordinator.
