Description:

Magenta Safety Training offers a program that is run in secondary schools for students completing VCAL as part of their year 10-12 studies.

Students will enrol in 180-200 hours of training from the Public Safety Training Package – PUA20713 Certificate II in Public Safety (Firefighting Operations). Students have the option of taking the program for one year and gaining 8 units from the qualification, or completing two years and gaining the full Certificate II qualification.

How does the program run?

- ****Trainers from MST will attend the school once a week for six months,**
- The program involves both theory and practical training sessions
- Students will receive a workbook to complete throughout the program
- Students will also complete competency based assessments throughout the program
- All firefighting equipment used is supplied by MST, and is of the current standard being used by Victorian fire services

While the training is based around the firefighting training package, the knowledge and skills that are taught are transferable to almost any industry
